TOTAL CME HOURS: 6 HOURS OF LECTURES AND INSTRUCTIONS.

OVERVIEW

This course covers a wide range of clinical disciplines and is designed to help the participant determine when to order imaging studies when faced with a particular clinical problem. The target audience for this course is primary care physicians, specialty physicians, nurse practitioners, physician assistants and nurses.

TEACHING METHODS

The teaching method for this activity will be lectures and interactive case study review.

LEARNING OBJECTIVES

Upon completion of this educational activity, participants will be able to:

- Examine diagnostic imaging from the clinician's perspective.
- Identify common clinical situations and discuss their differential diagnosis.
- Utilize diagnostic imaging studies to evaluate clinical problems and their possible etiologies.

REGISTRATIONS/CANCELLATIONS

There is no tuition for this course. Registration is on a first come, first served basis. You may register via fax, phone, email or web; the information is listed on the registration sheet within this brochure. We anticipate having a waiting list and request that if you are not able to attend after your registration has been confirmed, please call us at (610) 662-6213 to notify us so that we may accommodate another applicant in a timely fashion. If you have any questions, please call (610) 662-6213 or email: ncrostitc@aminj.com
